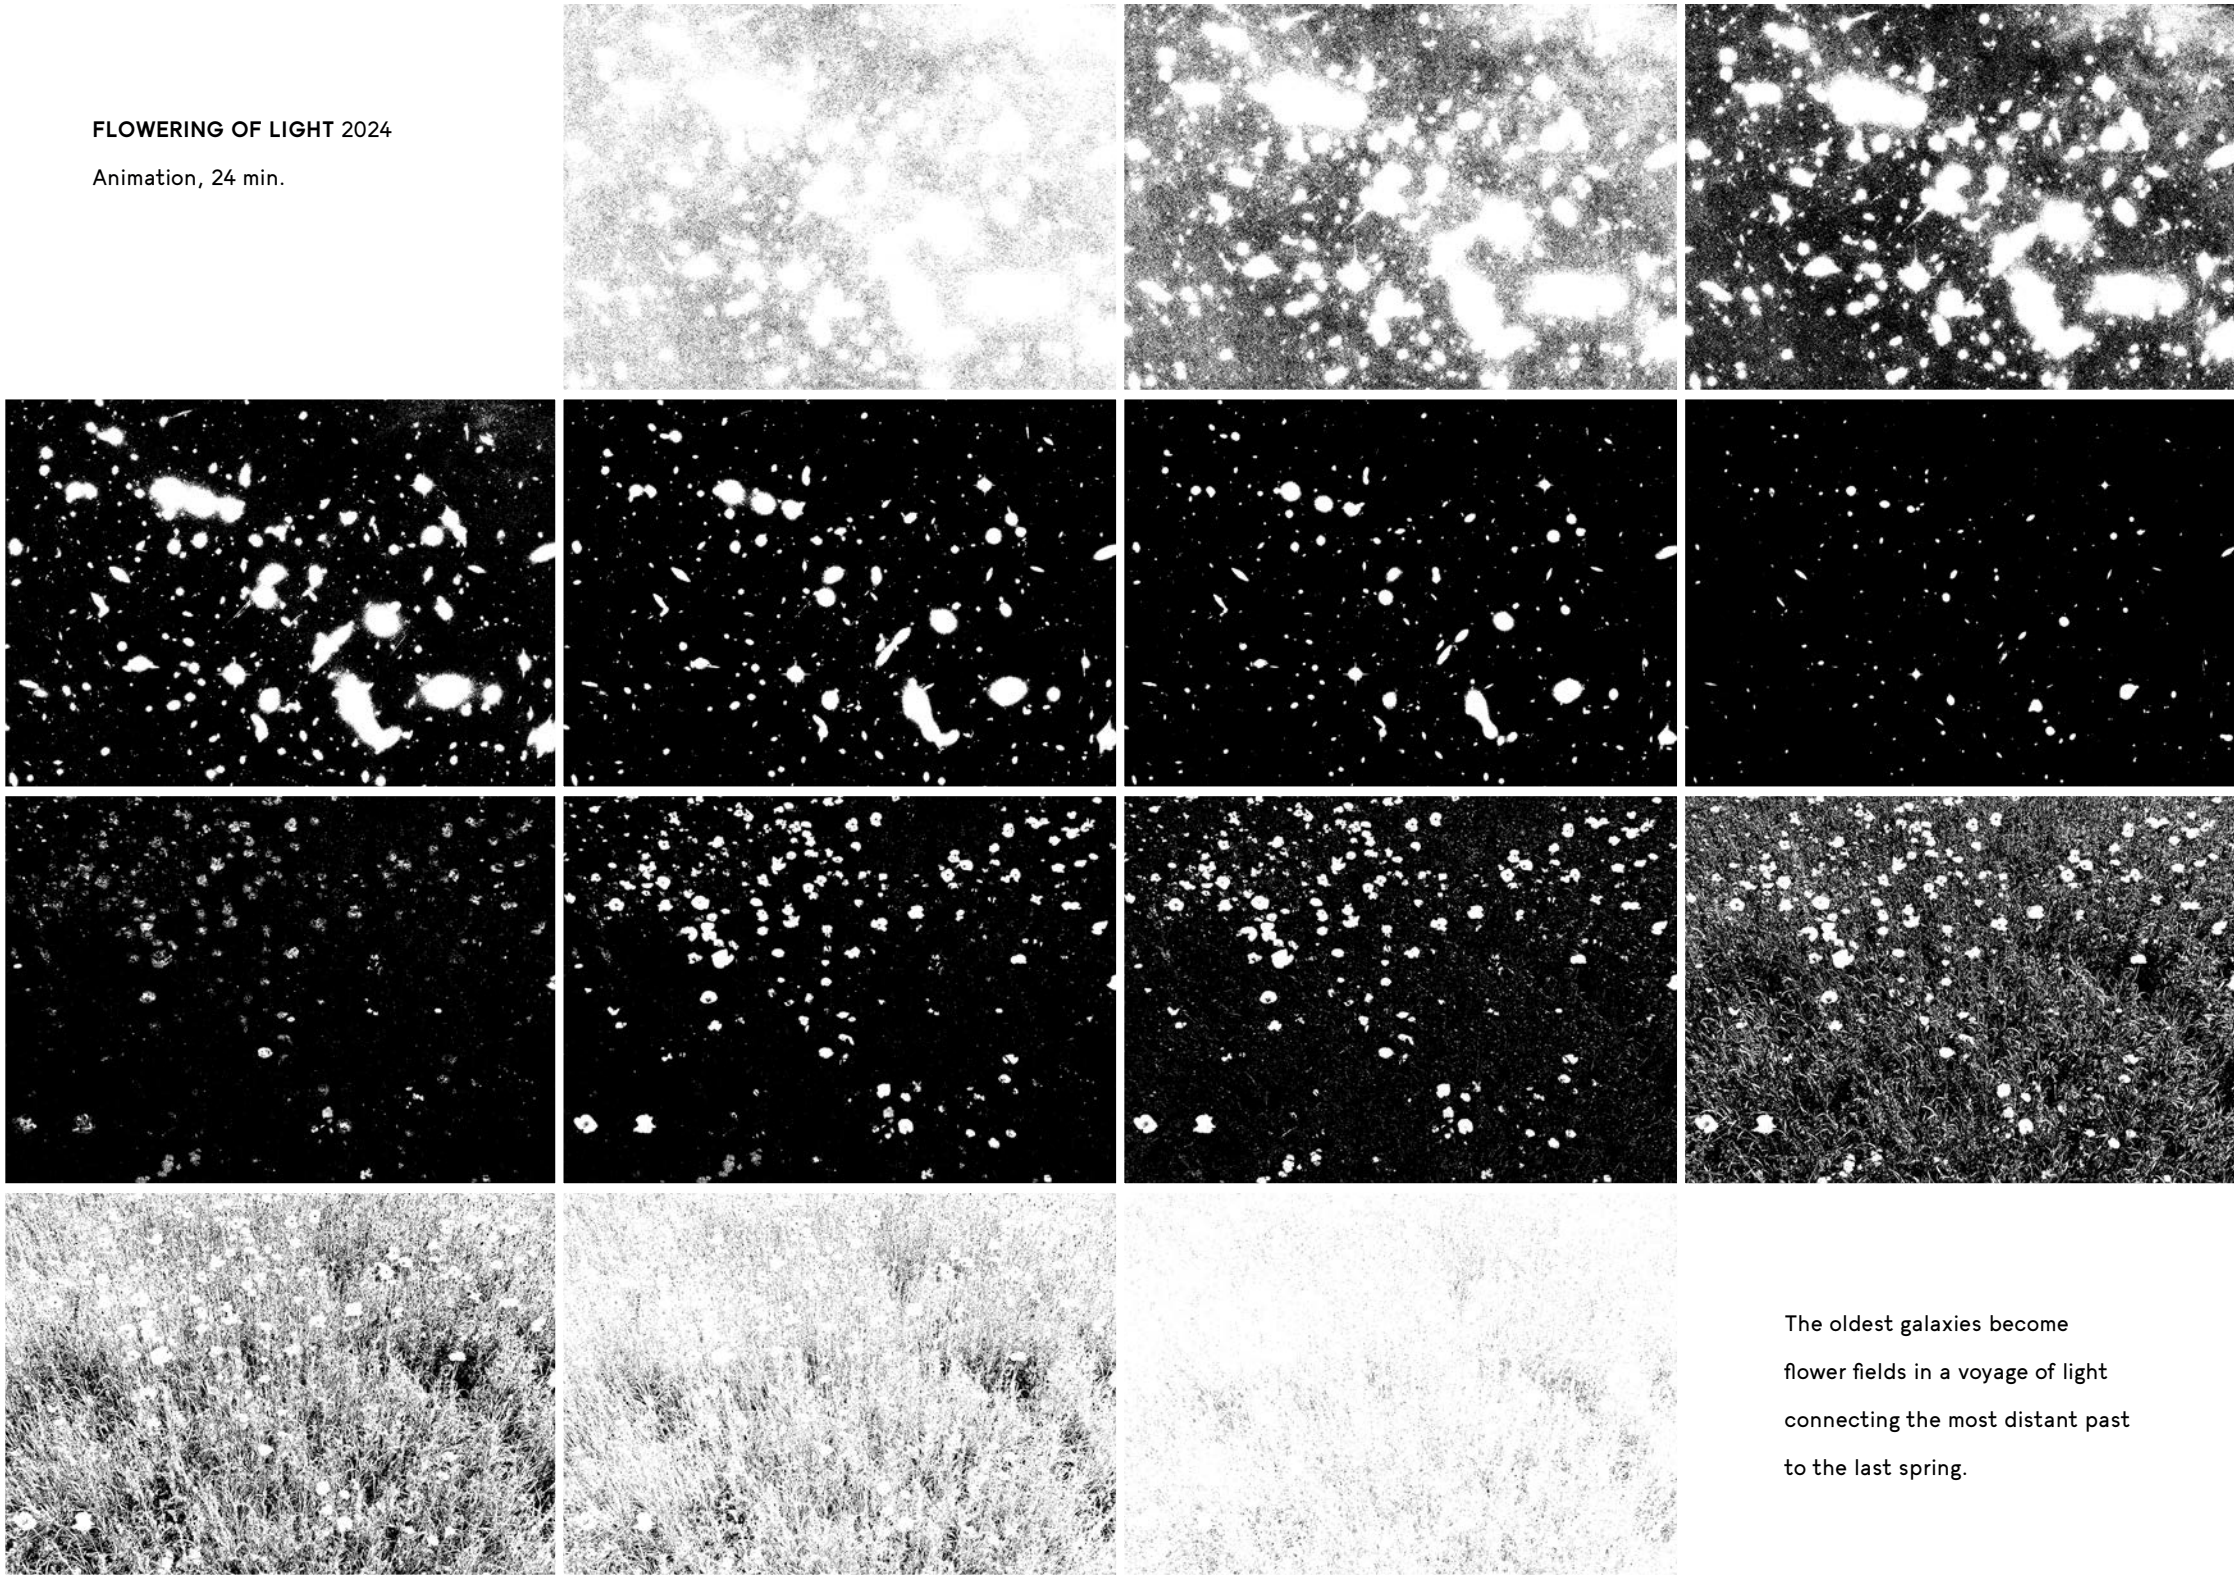
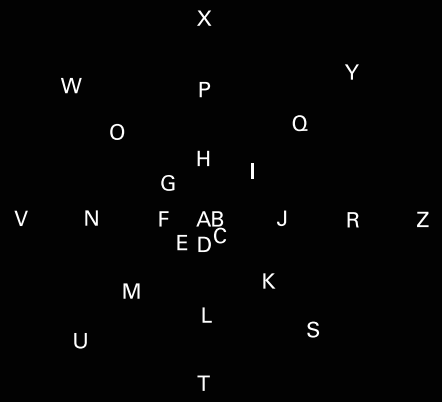
FLOWERING OF LIGHT 2024

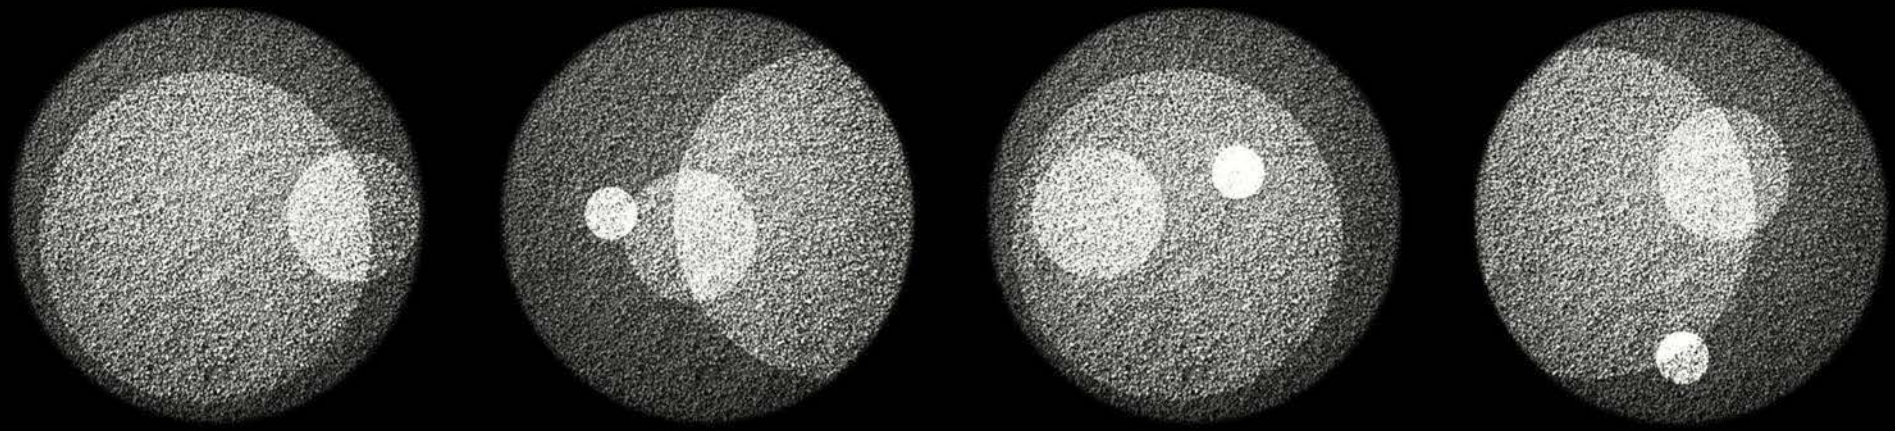
Animation, 24 min.



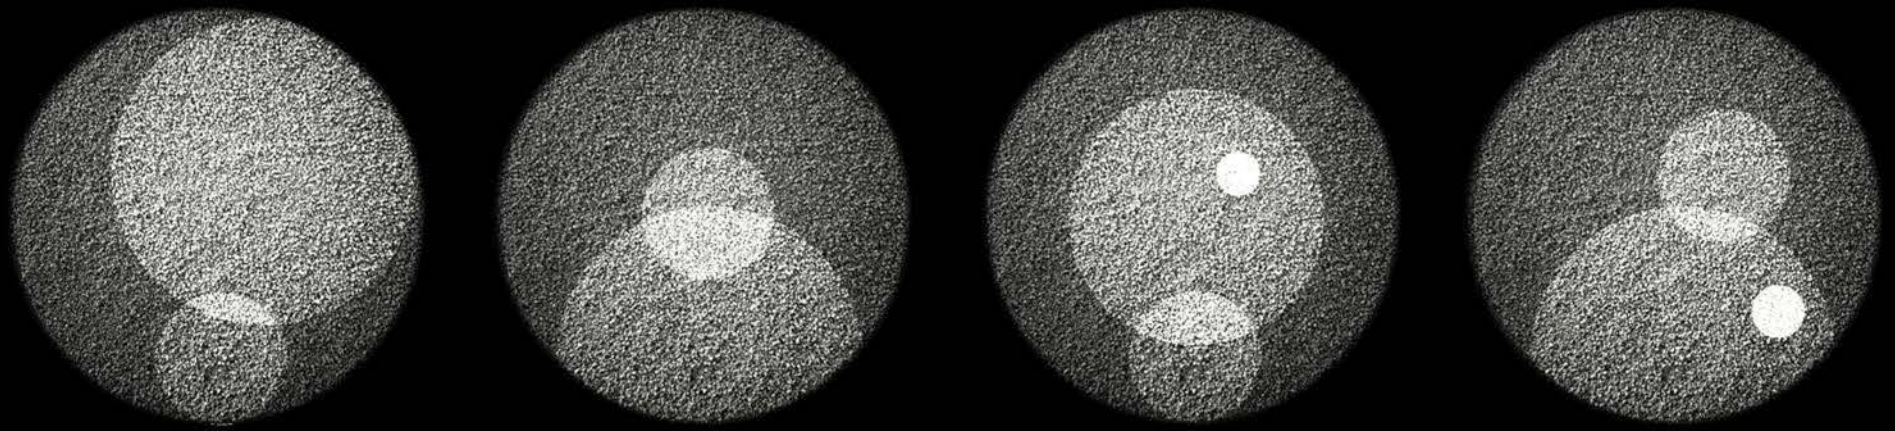
The oldest galaxies become flower fields in a voyage of light connecting the most distant past to the last spring.

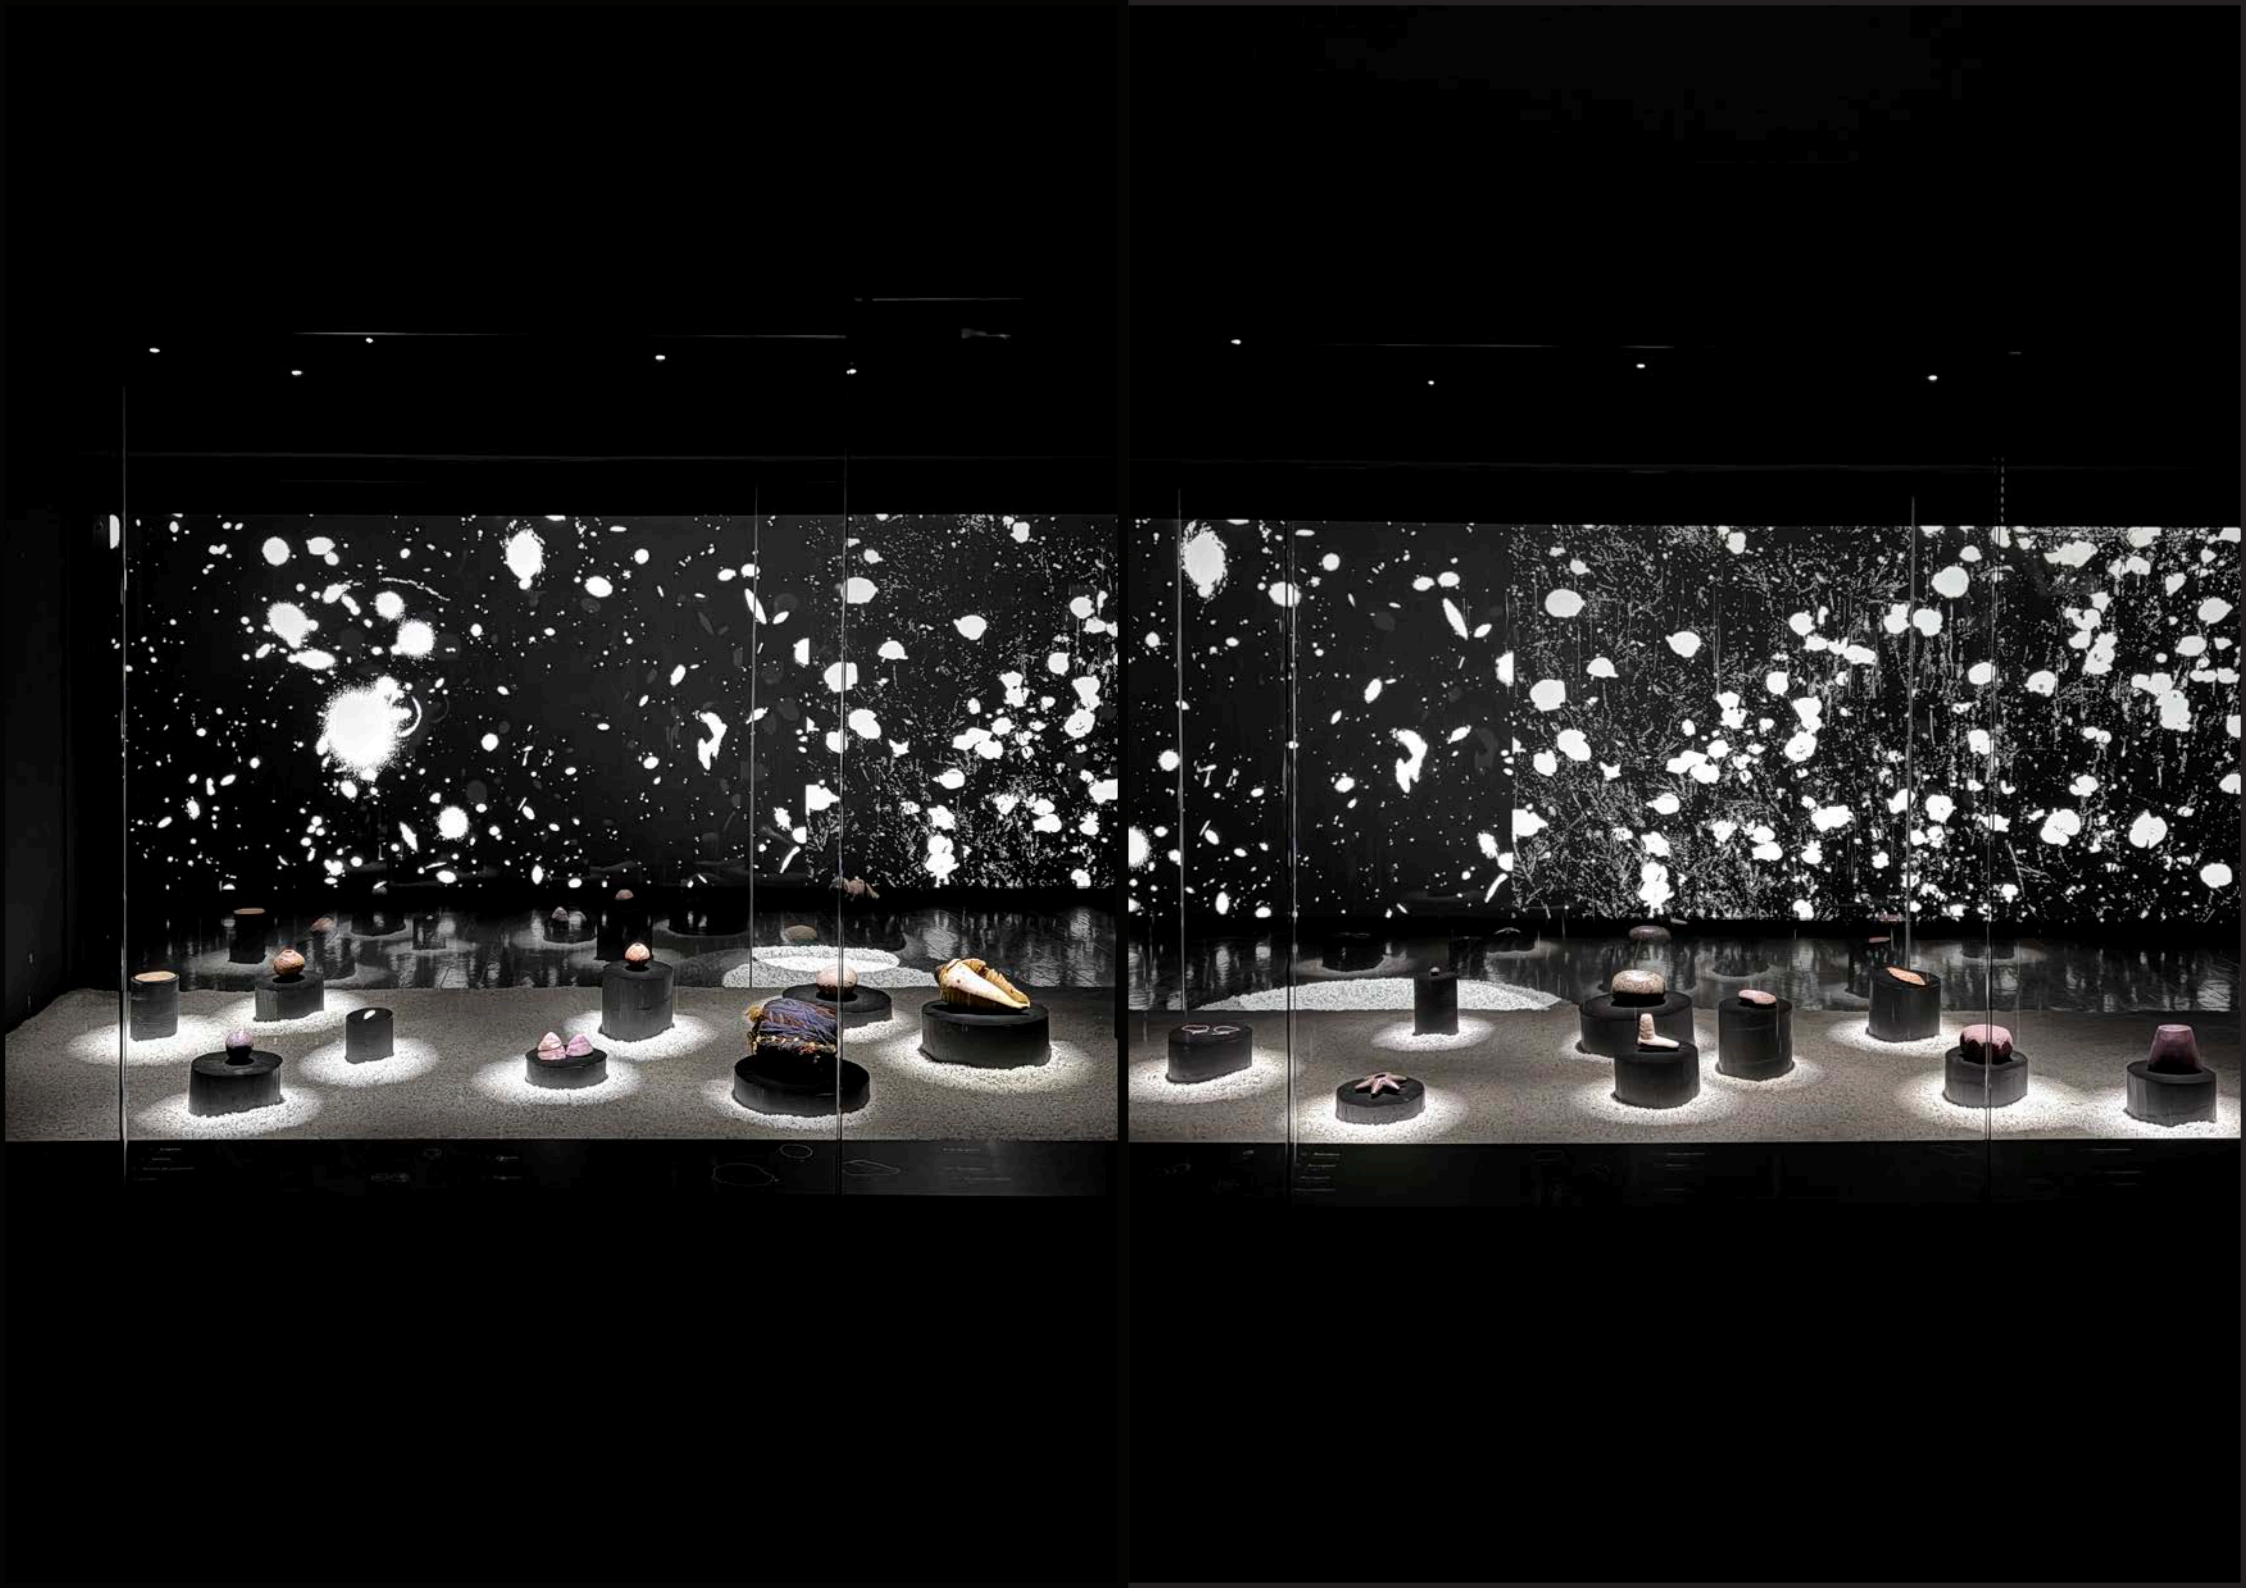


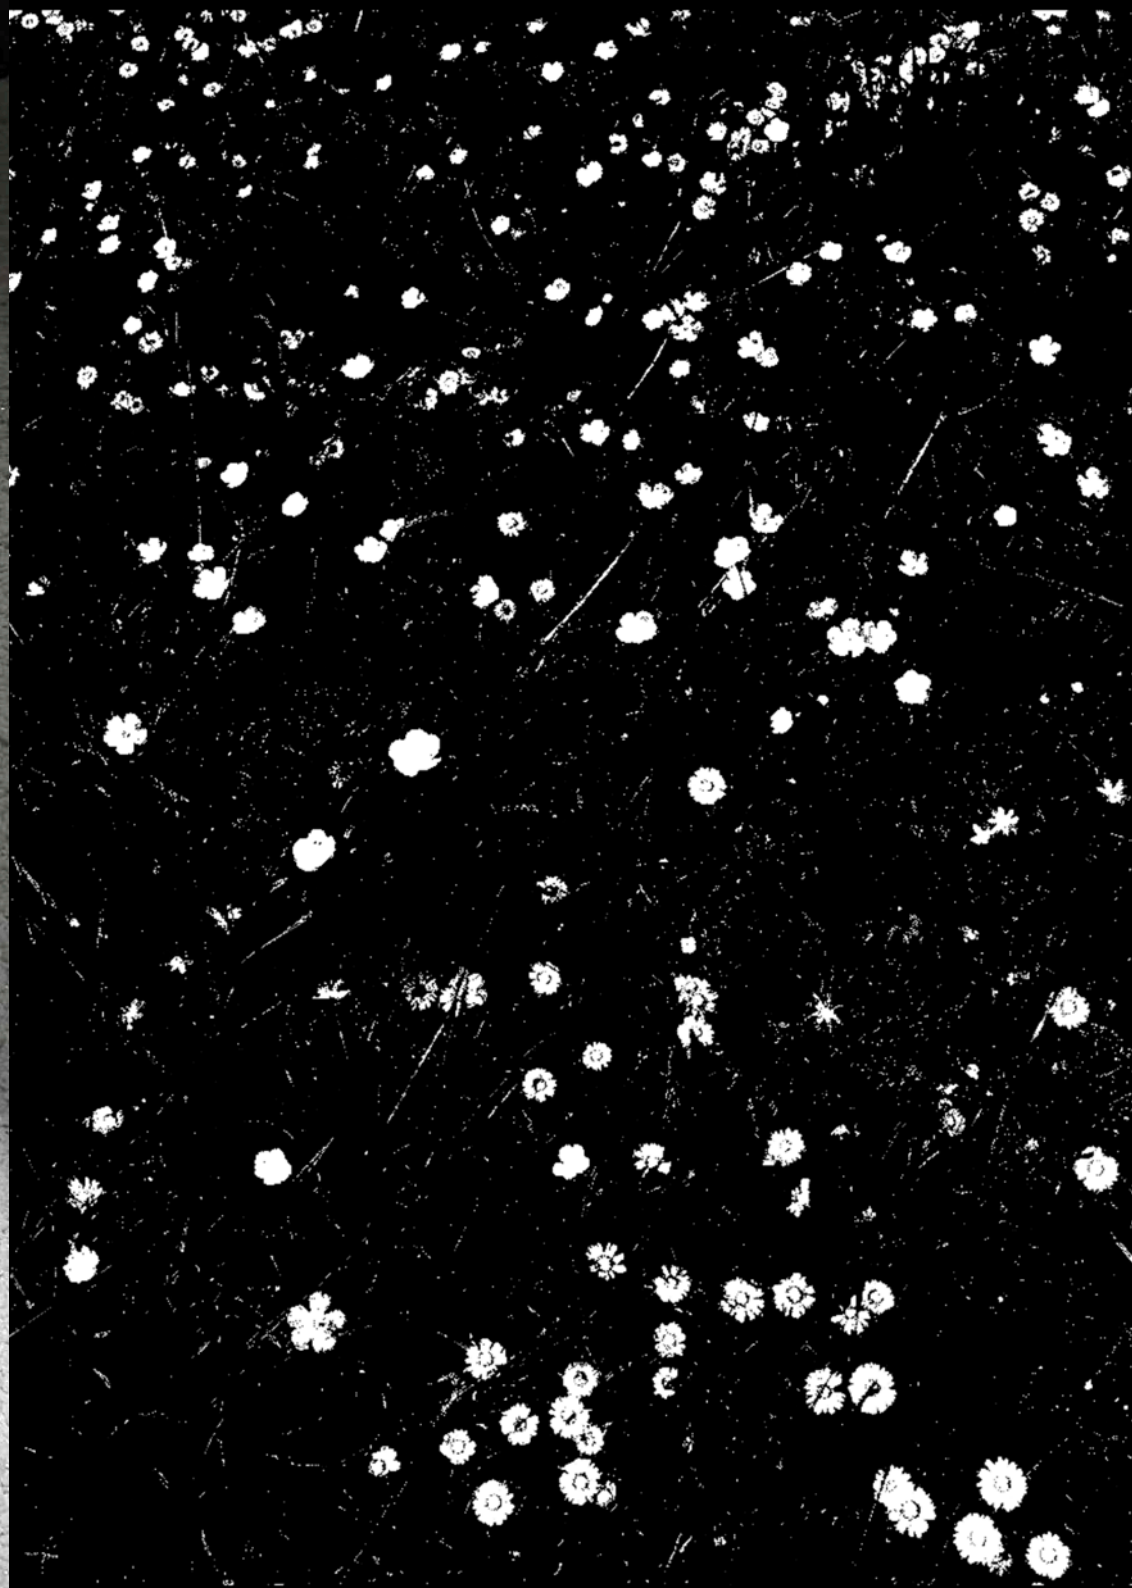
THE SEAS OF THE MOON 2024



Light drops on a mineral surface writing the names of the seas of the Moon encoded in a positional alphabet.







Artifacts dating from 9000 B.C. to the XIX century, from Cruz Yaconi collection at Museo Chileno de Arte Precolombino.
